

Francisca (Paqui) Arminio, Houskeeping Staff

Paqui Arminio was born in Arcos de la Frontera in the province of Cádiz, but spent the most part of her life in Seville and feels for the most part “sevillana”. Responsible for the cleaning and maintenance, she ensures that the newly restored CIEE Seville “Palacio” maintains a high standard of hygiene and cleanliness. A mother of two children, she enjoys spending her free time going to the country, cooking and sewing. She loves meeting new people and considers herself a very spontaneous person. She enjoys explaining the inner workings of Seville, as well as advising students on how to enjoy what they’re living, fight for what they believe in and appreciate what they have achieved.
