

Cristina González - Recepcionist

Cristina González was born and raised in Seville.

She obtained her degree in Geography at the University of Sevilla in 2009.

She has just joined the CIEE Seville staff as a receptionist. She enjoys her work, specially forming relationships with students and their host families. She combines her work at CIEE with English studies at the University of Sevilla.

She loves practicing outdoor sports (running, skiing, cycling...) and spending her free time on the beach.

Cristina would like to become a Geography teacher. To obtain this goal she wants to study a master on high school education next year.
