

## Oscar Ceballos, Publications Coordinator

Oscar was born and raised in Sevilla. He received his degree from the University of Seville's Faculty of Fine Arts, and worked as a painter, first in Spain, later for five years in England, and then again in Spain. He began working with CIEE in 1995, where he has had the opportunity to meet and work with a great number of students, sharing many diverse academic and cultural experiences. He has been a professor of The Spanish Language, Translation, Spanish Culture and Art. Since 2005, he has been Coordinator of CIEE Seville's Publications Department. His duties include coordinating the bi-annual publication of the *Más+Menos* magazine, which he puts together with the joint effort of students in the CIEE Liberal Arts program. Being a devoted "bético" has helped him to understand those elusive moments in life. His favourite past-times are reading and going for walks, but rarely has time for.
