At CIEE, study abroad is so much more than coursework in a new country. It’s about taking students out of their daily routine and introducing sights, sounds, tastes, and flavors that chip away their illusion of separateness and allow a sense of mutuality to emerge. That’s why our programs are packed with co-curricular activities and excursions and why we believe intercultural understanding has the power to change the world.
Nothing should prevent your students from studying abroad.

Dear Educators,

International education experiences help students develop intercultural understanding and a global perspective. Despite these life-long benefits, only 10% of U.S. college students study abroad. Why?

Barriers of cost, curriculum, and culture often stand in the way.

We at CIEE are committed to clearing a path so that all students, regardless of socio-economic, academic, racial, or ethnic background, have access to international education.

CIEE offers more than $8 million a year in scholarships and grants, including guaranteed travel grants to all Pell-eligible students, and awards for Gilman applicants, students from Minority Serving Institutions, and more.

Plus, CIEE has a diverse portfolio of short-term and traditional semester study abroad options in many academic disciplines. Besides first-in-class language programs, we have programs focused on business, design, journalism, and scores of other subjects. CIEE’s wide range of options means that nearly all students can find a way to study abroad during their time in college regardless of the requirements of their major or constraints of their institution’s academic calendar.

In response to demand, we’ve added dozens of new English-taught STEM courses to our Open Campus Block programming, many including a lab component. These courses are fundamental-level, so STEM students can study abroad earlier in their academic career and non-STEM majors can complete a science or math requirement abroad. They are taught in 6-week blocks across our Global Institute Network, which now includes Shanghai and Sydney.

We will keep working on new ways to open the door to international education for every student, and I hope you’ll join us in our efforts to convey to all students that study abroad is for them, not just for the 10% who currently are able to take advantage of the opportunity.

James P. Pellow, Ed.D.
President and CEO, CIEE, Inc.

WHY CIEE?

ACADEMICS
Our rigorous academic programs extend outside the classroom walls, offering students experiential learning and skill-building opportunities they need to succeed in their academic endeavors and beyond.

CULTURAL IMMERSION
We offer students the life-changing opportunity to live like a local, rounding out their experience with fieldwork opportunities for research and volunteering when available, along with cultural excursions.

200+ STUDY ABROAD PROGRAMS

60+ SITES AROUND THE WORLD

10,000 STUDENTS STUDY ABROAD EACH YEAR
INTERNSHIPS

There’s no better way for students to get a leg up in today’s highly competitive and increasingly globalized job market than with a global internship. Our Personal Placement Process ensures students across all academic disciplines are paired with enriching and career-boosting academic internships that offer real-world work experience. Whether it’s at a local or international business, nonprofit, or NGO, every global internship is complemented with co-curricular activities, local excursions, an online class, in-person professional coaching, and networking opportunities designed to help students succeed in the job market.

CIEE Global Interns in the Asia Pacific region will...

- Test drive their career path and explore professional options
- Boost their resume with international experience
- Grow their global network with employers and colleagues around the world
- Acquire intercultural skills highly valued in today’s diverse workforce

Internship placement examples include:

- Save the Children India
- St. Jude Childcare Centres
- KPMG
- Haymarket Medi
- Hallmark Cards
- Six Capital
- Banyan Tree Group

CIEE GLOBAL INSTITUTE NETWORK

Within our Global Institute Network, students design their own semester or quarter abroad by enrolling in the CIEE Open Campus Block program. Because each location in the Global Institute Network operates on the same schedule, students can move seamlessly between locations for a one-of-a-kind experience tailored to their individual interests and academic requirements.

DEEP IMMERSION

Students seeking an immersive experience may choose to enroll in three blocks at one location in the Network.

COMPARATIVE LEARNING

Students looking for a rich comparative-learning experience may choose to study in up to three different locations within the Network during each of the three six-week blocks.

STUDY TOURS

Study tours are an integral part of the learning experience at CIEE Global Institutes. Designed to enhance intercultural skills and academics, these tours and additional daily co-curricular activities are included in each Open Campus Block program.
OPEN CAMPUS BLOCK PROGRAMMING

The traditional semester has been transformed into 3 six-week blocks. Students can enroll in 1, 2, or 3 blocks in up to as many locations. The course and continent combinations are only limited by students’ imaginations!

ACADEMIC TRACKS
Courses are taught in English across six academic tracks:

INTERNATIONAL INTERNSHIPS

ciee.org/opencampus
Student health and safety is our top priority. Each of our 60+ sites is regularly assessed using international risk management standards to make certain our programs can be safely and successfully run. In addition, our professional onsite staff are thoroughly immersed in the community and trained to support the wellbeing of every study abroad student.

VIGILANT
Our full-time health, safety, and security team receives continuous updates from multiple emergency alerting systems and the U.S. State Department to keep abreast of political, environmental, and cultural situations around the world.

PREPARED
CIEE international staff undergo extensive training to mitigate risk to students’ physical and mental wellbeing. In addition, each CIEE site has a tested Emergency Action and Response Plan tailored to local realities.

ORGANIZED
Our emergency notification system simultaneously broadcasts messages via text message, phone, and email so students can be quickly accounted for and informed in the event of an incident.

INSURED
Every student is automatically enrolled in our comprehensive iNext insurance plan, which provides supplemental health and travel coverage.
Since 1947, CIEE has supported the safety of over 2,000,000 students during their study abroad experience.

**Student Safety is a Collaborative Process**

Our best-in-class health, safety, and security protocols encourage students to participate in a predeparture orientation and required an onsite orientation to familiarize themselves with any local, regional, or national situations. CIEE recommends and encourages students to facilitate their commitment to staying safe by:

- **Reviewing State Department information for any country they intend to travel to while abroad.**
- **Registering for the State Department’s Smart Traveler Enrollment Program (STEP) to ensure receipt of Department of State updates.**
- **Visiting the Centers for Disease Control and Prevention and World Health Organization websites for information about health-related risks and prevention protocols associated with countries students may visit.**
- **Adhering to CIEE Health, Safety, and Security guidelines and onsite staff guidance regarding local safety measures.**

[ciee.org/safety](http://ciee.org/safety)
Every year CIEE helps students study abroad by awarding more scholarships and grants than any other study abroad organization. One application and students are considered for every CIEE scholarship and grant they’re eligible to receive.

**GAIN Travel Grants**
CIEE’s Global Access Initiative (GAIN) Grant
$750 to $2,000 depending on CIEE program location – guaranteed for all Pell-eligible students. Available to others demonstrating financial need on a first-come, first-served basis.

**Gilman Go Global Grants**
$2,500 for semester programs / $1,000 for summer programs – guaranteed for all Benjamin A. Gilman scholarship applicants regardless of whether they receive a Gilman. Go Global Grant recipients are guaranteed a GAIN Grant, too!

**Merit-Based Scholarships**
$2,500 for semester programs / $750 for summer programs – awarded to students demonstrating high academic achievement in disciplines such as health sciences, marine ecology, and comparative studies.

**Minority Serving Institutions (MSI) Grant**
$2,000 for semester programs / $500 for summer programs – guaranteed for all students attending Minority Serving Institutions (as identified by Rutgers University Center for Minority Serving Institutions).

The state capital of Western Australia boasts a population of 1.8 million people and is ranked as Australia’s most environmentally attractive city. Perth enjoys more hours of sunshine than any other Australian city and is ranked as one of the world’s top ten lifestyle destinations.

WHERE STUDENTS STUDY

CIEE Perth
CIEE Perth is conveniently located on the campus of Murdoch University in suburban Perth. Coined “Qantas Lounge” by CIEE staff, the center has lounge space for students to do homework, relax, and interact with fellow students and staff.

Murdoch University
Founded in 1973, Murdoch University is a public university in Perth with nine faculties. It’s home to over 18,500 students, including 3,000 international students from over 100 countries.

STUDY TOURS & CULTURAL EXCURSIONS

Every CIEE semester program has cultural excursions and study tours uniquely designed to complement the program’s academics and enhance students’ cultural immersion. In Perth, past study tours and excursions have included:

- Interactive hikes led by Aboriginal guides to get to know the flora and fauna of Australia, or spooky night tours of historic Fremantle prison – built by its very first convicts
- Surfing lessons or trips to Australian football games
- Visits to beautiful Rottnest Island or the southwest forest, a biodiversity hotspot

INTERNSHIPS & VOLUNTEERING

Depending on their program of study and availability, students may be able to participate in an internship or volunteer. In Perth, students can gain valuable work experience interning at a sustainable community development organization, at parliament, or in the public sector.

SEMESTER PROGRAMS

Arts + Sciences
Biology + Ecology Field Studies
This program allows American students to dig into Murdoch University’s liberal arts programs and offerings in business, media and film studies, communications, and field-based sciences while they learn about Australian life and culture. In addition to opportunities to connect with the community, students can also gain real-world work experience with a for-credit internship, including a parliamentary option in the fall.

Nanjing was the seat of power for Imperial China for six dynasties and is remembered as one of the Four Great Ancient Capitals of China. With more than 50 colleges and universities and over 700,000 college students, Nanjing hosts the largest percentage of students – more than any other city in China.

WHERE STUDENTS STUDY

CIEE Nanjing
Conveniently located at Nanjing University on the Gulou campus.

Nanjing University
Founded in 1902, this prestigious university is known for its strong liberal arts and social sciences, and its connections with more than 200 universities and research institutes in 70 countries. Nanjing hosts more than 43,000 undergraduate and graduate students on three campuses.

STUDY TOURS & CULTURAL EXCURSIONS

Every CIEE semester program has cultural excursions and study tours uniquely designed to complement the program’s academics and enhance students’ cultural immersion. In Nanjing, past study tours and excursions have included:

- Field trips to the Presidential Palace, where Chinese democracy was born, walks atop the city’s 600-year-old wall, and boat rides on beautiful Xuanwu Lake
- Opportunities to make Chinese dumplings, learn calligraphy and traditional painting, hold dragon boat races, or dine with Chinese families
- Excursions to the Northwest to travel along the Silk Road and discover Buddhist relics
- Trips to panda sanctuaries in Sichuan and hikes on Mt. Qingcheng, birthplace of Chinese Taoism

INTERNSHIPS & VOLUNTEERING

Depending on their program of study and availability, students may be able to participate in an internship or volunteer. In Nanjing, students can connect with Chinese people and give back by volunteering at schools, homes for the elderly, local magazines, migrant communities, and more.

Japan’s bustling capital city is renowned for its nightlife, shopping, public transportation, and cleanliness. Perhaps because of its mix of ultramodern and traditional, Tokyo also earns high marks for being a wonderful place for university students.

WHERE STUDENTS STUDY

CIEE Tokyo
CIEE Tokyo is conveniently located within the central Yotsuya campus of Sophia University, within minutes commute to the vibrant Shinjuku and Ginza districts in Tokyo.

Sophia University
Founded by Jesuits in 1913, Sophia University is one of the leading universities in Japan. It welcomes more than 10,000 students, including international students from more than 40 countries. In addition to Japanese language courses, CIEE students take courses through the Faculty of Liberal Arts.

STUDY TOURS & CULTURAL EXCURSIONS

Every CIEE semester program has frequent cultural excursions and an overnight study tour uniquely designed to complement the program’s academics and enhance students’ cultural immersion. In Tokyo, past study tours and excursions have included:

- Trip to Hiroshima to visit the Peace Museum and Miyajima Island, where students learn about the effects of World War II and its impact on the local population and environment
- Trip to Inuyama, Aichi Prefecture, to visit Inuyama Castle, which is one of Japan’s oldest castles, preserved in its original state, and partake in one of the most popular local cultural festivals in the Aichi Prefecture

INTERNSHIPS & VOLUNTEERING

Depending on their program of study and availability, students may be able to participate in an internship or volunteer. In Tokyo, students can volunteer by helping at local schools, collecting food for the homeless, or supporting disabled youth. In addition, students can take advantage of non-credit internship opportunities at a variety of businesses or NGOs.

At CIEE, study abroad is so much more than coursework in a new country. It involves taking students out of their daily routine and introducing sights, sounds, scents, and flavors that chip away at their illusion of separateness and allow a sense of mutuality to emerge. That's why our programs are packed with co-curricular activities and excursions and why we believe intercultural understanding has the power to change the world.
