At CIEE, study abroad is so much more than coursework in a new country. It’s about taking students out of their daily routine and introducing sights, sounds, scents, and flavors that chip away their illusion of separateness and allow a sense of mutuality to emerge. That’s why our programs are packed with co-curricular activities and excursions and why we believe intercultural understanding has the power to change the world.
Nothing should prevent your students from studying abroad. Dear Educators,

International education experiences help students develop intercultural understanding and a global perspective. Despite these life-long benefits, only 1% of U.S. college students study abroad. Why?

Barriers of cost, curriculum, and culture often stand in the way. We at CIEE are committed to clearing a path so that all students, regardless of socio-economic, academic, racial, or ethnic background, have access to international education. CIEE offers more than $8 million a year in scholarships and grants, including guaranteed travel grants to all Pell-eligible students, and awards for Gilman applicants, students from Minority Serving Institutions, and more.

Plus, CIEE has a diverse portfolio of short-term and traditional semester study abroad options in many academic disciplines. Besides first-class language programs, we have programs focused on business, design, journalism, and scores of other subjects. CIEE's wide range of options means that nearly all students can find a way to study abroad during their time in college regardless of the requirements of their major or constraints of their institution's academic calendar.

In response to demand, we've added dozens of new English-taught STEM courses to our Open Campus Block programming, many including a lab component. These courses are fundamental-level, so STEM students can study abroad earlier in their academic career and non-STEM majors can complete a science or math requirement abroad. They are taught in six-week blocks across our Global Institute Network, which now includes Shanghai and Sydney.

We will keep working on new ways to open the door to international education for every student, and I hope you'll join us in our efforts to convey to all students that study abroad is for them, not just for the 1% who currently are able to take advantage of the opportunity.

James P. Pellow, Ed.D., President and CEO, CIEE, Inc.
Nothing should prevent your students from studying abroad.

Dear Educators,

International education experiences help students develop intercultural understanding and a global perspective. Despite these life-long benefits, only 10% of U.S. college students study abroad. Why?

Barriers of cost, curriculum, and culture often stand in the way.

We at CIEE are committed to clearing a path so that all students, regardless of socio-economic, academic, racial, or ethnic background, have access to international education.

CIEE offers more than $8 million a year in scholarships and grants, including guaranteed travel grants to all Pell-eligible students, and awards for Gilman applicants, students from Minority Serving Institutions, and more.

Plus, CIEE has a diverse portfolio of short-term and traditional semester study abroad options in many academic disciplines. Besides first-in-class language programs, we have programs focused on business, design, journalism, and scores of other subjects. CIEE’s wide range of options means that nearly all students can find a way to study abroad during their time in college regardless of the requirements of their major or constraints of their institution’s academic calendar.

In response to demand, we’ve added dozens of new English-taught STEM courses to our Open Campus Block programming, many including a lab component. These courses are fundamental-level, so STEM students can study abroad earlier in their academic career and non-STEM majors can complete a science or math requirement abroad. They are taught in 6-week blocks across our Global Institute Network, which now includes Shanghai and Sydney.

We will keep working on new ways to open the door to international education for every student, and I hope you’ll join us in our efforts to convey to all students that study abroad is for them, not just for the 10% who currently are able to take advantage of the opportunity.

James P. Pellow, Ed.D.

WHY CIEE?

ACADEMICS
Our rigorous academic programs extend outside the classroom walls, offering students experiential learning and skill-building opportunities they need to succeed in their academic endeavors and beyond.

CULTURAL IMMERSION
We offer students the life-changing opportunity to live like a local, rounding out their experience with fieldwork opportunities for research and volunteering when available, along with cultural excursions.

70+ SUMMER STUDY ABROAD PROGRAMS

40+ SITES AROUND THE WORLD

10,000 STUDENTS STUDY ABROAD EACH YEAR
There’s no better way for students to get a leg up in today’s highly competitive and increasingly globalized job market than with a global internship. Our Personal Placement Process ensures students across all academic disciplines are paired with enriching and career-boosting academic internships that offer real-world work experience. Whether it’s at a local or international business, nonprofit, or NGO, every global internship is complemented with co-curricular activities, local excursions, an online class, in-person professional coaching, and networking opportunities designed to help students succeed in the job market.

CIEE Summer Global Interns will…

- Test drive their career path and explore professional options
- Boost their resume with international experience
- Grow their global network with employers and colleagues around the world
- Acquire intercultural skills highly valued in today’s diverse workforce

Sample placements include:
- Chile Global
- Cape Town TV
- Save the Children India
- Cisco

[ciie.org/internships]
STEM WITH CIEE

Whether students want to take a single STEM course taught in English or an entirely STEM-focused academic program, CIEE has them covered. More than 40 courses and 70 program options means studying STEM abroad is easier than ever.

Students can also direct enroll at more than 40 top-tier partner institutions around the world.

70+ STEM PROGRAMS

Students can study STEM during any term.
- January Term
- Summer
- Semester
- Quarter

40+ STEM COURSES

- Biology
- Chemistry
- Computer Science
- Ecology
- Engineering
- Environmental Science
- Math
- Physics
- Psychology
- Public Health
- Technology
OPEN CAMPUS BLOCK

OPEN CAMPUS BLOCK PROGRAM

Exclusive to our Global Institute Network, the Open Campus Block program allows students to choose courses across six academic tracks, including STEM and Society.
Within our Global Institute Network, students design their own semester or quarter abroad by enrolling in the CIEE Open Campus Block program. Because each location in the Global Institute Network operates on the same schedule, students can move seamlessly between locations for a one-of-a-kind experience tailored to their individual interests and academic requirements.

### 14 GLOBAL INSTITUTES

- Berlin
- Buenos Aires
- Cape Town
- Copenhagen
- London
- Madrid
- Monteverde
- Paris
- Rio de Janeiro
- Rome
- Santiago, Chile
- Shanghai
- Sydney
- Yucatán

### DEEP IMMERSION

Students seeking an immersive experience may choose to enroll in three blocks at one location in the Network.

### COMPARATIVE LEARNING

Students looking for a rich comparative-learning experience may choose to study in up to three different locations within the Network during each of the three six-week blocks.

### STUDY TOURS

Study tours are an integral part of the learning experience at CIEE Global Institutes. Designed to enhance intercultural skills and academics, these tours and additional daily co-curricular activities are included in each Open Campus Block program.
OPEN CAMPUS BLOCK PROGRAMMING

The traditional semester has been transformed into 3 six-week blocks. Students can enroll in 1, 2, or 3 blocks in up to as many locations. The course and continent combinations are only limited by students’ imaginations!

ACADEMIC TRACKS
Courses are taught in English across six academic tracks:

- Business
- Communications, New Media, and Journalism
- Global and Community Health
- International Relations and Political Science
- Language, Literature, and Culture
- STEM and Society

FOREIGN LANGUAGE COURSES

SERVICE-LEARNING

RESEARCH PROJECTS

INTERNATIONAL INTERNSHIPS

ciee.org/opencampus
HEALTH, SAFETY, AND SECURITY

Student health and safety is our top priority. Each of our 60+ sites is regularly assessed using international risk management standards to make certain our programs can be safely and successfully run. In addition, our professional onsite staff are thoroughly immersed in the community and trained to support the wellbeing of every study abroad student.

VIGILANT

Our full-time health, safety, and security team receives continuous updates from multiple emergency alerting systems and the U.S. State Department to keep abreast of political, environmental, and cultural situations around the world.

PREPARED

CIEE international staff undergo extensive training to mitigate risk to students’ physical and mental wellbeing. In addition, each CIEE site has a tested Emergency Action and Response Plan tailored to local realities.

ORGANIZED

Our emergency notification system simultaneously broadcasts messages via text message, phone, and email so students can be quickly accounted for and informed in the event of an incident.

INSURED

Every student is automatically enrolled in our comprehensive iNext insurance plan, which provides supplemental health and travel coverage.
Since 1947, CIEE has supported the safety of over 2,000,000 students during their study abroad experience.

**Student Safety is a Collaborative Process**

Our best-in-class health, safety, and security protocols encourage students to participate in a predeparture orientation and required an onsite orientation to familiarize themselves with any local, regional, or national situations. CIEE recommends and encourages students to facilitate their commitment to staying safe by:

- **Reviewing State Department information** for any country they intend to travel to while abroad.

- **Registering for the State Department’s Smart Traveler Enrollment Program (STEP)** to ensure receipt of Department of State updates.

- **Visiting the Centers for Disease Control and Prevention and World Health Organization websites** for information about health-related risks and prevention protocols associated with countries students may visit.

- **Adhering to CIEE Health, Safety, and Security guidelines and onsite staff guidance regarding local safety measures**.
Every year CIEE helps students study abroad by awarding more scholarships and grants than any other study abroad organization. One application and students are considered for every CIEE scholarship and grant they’re eligible to receive.

**GAIN Travel Grants**
CIEE’s Global Access Initiative (GAIN) Grant
$750 to $2,000 depending on CIEE program location – guaranteed for all Pell-eligible students. Available to others demonstrating financial need on a first-come, first-served basis.

**Gilman Go Global Grants**
$2,500 for semester programs / $1,000 for summer programs – guaranteed for all Benjamin A. Gilman scholarship applicants regardless of whether they receive a Gilman. Go Global Grant recipients are guaranteed a GAIN Grant, too!

**Merit-Based Scholarships**
$2,500 for semester programs / $750 for summer programs – awarded to students demonstrating high academic achievement in disciplines such as health sciences, marine ecology, and comparative studies.

**Minority Serving Institutions (MSI) Grant**
$2,000 for semester programs / $500 for summer programs – guaranteed for all students attending Minority Serving Institutions (as identified by Rutgers University Center for Minority Serving Institutions).

1 SCHOLARSHIP APPLICATION & DONE

MORE THAN 8 MILLION IN SCHOLARSHIPS OFFERED EACH YEAR

ciee.org/scholarships
EXPERIENCE THE WORLD THIS SUMMER

THE WORLD IS OUR CLASSROOM. JOIN US."
DESIGNING THE ULTIMATE COMPARATIVE LEARNING EXPERIENCE

CIEE’s short-term summer programs are perfect for designing rich, comparative learning experiences. Sessions start and end on aligned dates, so students can select up to three sessions in up to three locations.

Whether it’s studying public health in London and Amsterdam; business in Moscow, Toulouse, and Barcelona; or exploring three different subjects on three different continents, our rigorous, academics-focused programs provide life-changing opportunities for students.
With one of Africa’s most vital healthcare systems, Botswana is an engaging place to explore regional, social, and scientific health issues. Students learn firsthand at clinics, public health non-governmental organizations (NGOs), and hospitals.

**GPA**
Overall GPA of 2.5

**Credit**
10 semester/15 quarter hours

**Program Prerequisites**
College-level coursework in public health is recommended.

**Program Requirements**
Students take three required courses: two public health courses and a Setswana language course.

**Top Disciplines**
Behavioral Science, Biology, Development, Health Science, History, Liberal Arts, Medicine, Public Health, Research, Setswana

**Language of Instruction**
English

**Housing and Meals**
Homestay – 2 meals per day
Residence hall – meals not included

**Program Duration**
8 weeks
late May – late July

---

**Host Institution**
CIEE Gaborone

**Representative Courses**
Community Health Practicum
Pre-Professional Healthcare Issues in Botswana
Setswana Language and Culture Practicum

This course listing is for informational purposes only. The courses as described may be subject to change as a result of ongoing revisions, assignment of lecturers and teaching staff, and program development. Courses may be cancelled due to insufficient enrollment.
Students interested in economic challenges in distinctive cultures get a real-world look at life in Ghana. Through studies in history, politics, and social change, students come to understand Ghana’s vibrant culture and community.

GPA
Overall GPA of 2.5

Credit
3-4 semester/4.5-6 quarter hours per session

Program Requirements
Students take one CIEE content course for 3 credits and an optional Communicative Twi Language course (may be taken only once) for an additional 1 credit.

Top Disciplines
Cultural Studies, Development, Medicine, Public Health, Sociology

Language of Instruction
English

Housing and Meals
Homestay – 2 meals per day on weekdays, 3 meals per day on weekends
Hostel – meals not included

Program Duration
Short-Term
Session II (4 weeks): mid-June – mid-July

Comparative Experience
Students can further customize their study abroad experience by combining CIEE short-term programs, perhaps even in different countries, for a greater global perspective.

Options for students to consider:
Dakar, Senegal – Summer Senegalese Studies
Rabat, Morocco – Summer Moroccan Studies

Host Institution
CIEE Legon

Representative Courses
Communicative Twi Language
Culture and Reproductive Health

This course listing is for informational purposes only. The courses as described may be subject to change as a result of ongoing revisions, assignment of lecturers and teaching staff, and program development. Courses may be cancelled due to insufficient enrollment.
Amman, Jordan
Summer Arabic Language

Students study intensive Arabic in the heart of Amman’s traditional Eastern district. In a city where spectacular Roman ruins share the landscape with westernized districts, students build on coursework by conversing in the native language in homes, workplaces, and among new friends, all the while increasing their understanding of Jordanian society.

GPA
Overall GPA of 2.5

Credit
10 semester/15 quarter hours

Program Prerequisites
0-6 semesters of college-level Arabic or equivalent.

Program Requirements
Students take Modern Standard Arabic and Colloquial Jordanian Arabic. Students with some language experience take a placement exam upon arrival and are then assigned to the appropriate class level.

Top Disciplines
Arabic Language, Cultural Studies, Literature, Religious Studies

Language of Instruction
Arabic

Housing and Meals
Homestay – 2 meals per day on weekdays and most meals on weekends
Apartment – meals not included

Program Duration
9 weeks
early June – late July

Host Institution
CIEE Amman

Representative Courses
Colloquial Jordanian Arabic Beginning I
Colloquial Jordanian Arabic Intermediate I
Colloquial Jordanian Arabic Advanced I
Intensive Modern Standard Arabic Beginning I, II
Intensive Modern Standard Arabic Intermediate I, II
Intensive Modern Standard Arabic Advanced I, II, III

This course listing is for informational purposes only. The courses as described may be subject to change as a result of ongoing revisions, assignment of lecturers and teaching staff, and program development. Courses may be cancelled due to insufficient enrollment.

AMMAN
This rigorous summer program is designed to help students learn the Arabic language or learn about the history, culture, and politics of Jordan and the Middle East with content courses taught in English. From international relations and diplomacy in the Middle East to an exploration of the Palestinian conflict, students gain insights into the history and culture of this complex region. Students can also opt to learn colloquial Jordanian Arabic.

**GPA**
Overall GPA of 2.5

**Credit**
3-4 semester/4.5-6 quarter hours per session

**Program Requirements**
Students take one CIEE content course for 3 credits and may also enroll in an optional Communicative Colloquial Jordanian Arabic course (may be taken only once) for an additional 1 credit.

**Top Disciplines**
Cultural Studies, Development, Economics, History, Liberal Arts, Literature

**Language of Instruction**
English, Arabic

**Housing and Meals**
Homestay – 2 meals per day on weekdays and most meals on weekends
Apartment – meals not included

**Program Duration**
Short-Term
Session I (4 weeks): late May – mid-June
Session II (4 weeks): mid-June – mid-July

**Comparative Experience**
Students can further customize their study abroad experience by combining CIEE short-term programs, perhaps even in different countries, for a greater global perspective.

**Options for students to consider:**
Amman, Jordan – Summer Arabic Language
Rabat, Morocco – Summer Moroccan Studies

**Host Institution**
CIEE Amman

**Representative Courses**
Session I
Communicative Colloquial Jordanian Arabic
Seminar on the Israeli-Palestinian Conflict

Session II
Communicative Colloquial Jordanian Arabic
International Relations and Diplomacy in the Middle East

This course listing is for informational purposes only. The courses as described may be subject to change as a result of ongoing revisions, assignment of lecturers and teaching staff, and program development. Courses may be cancelled due to insufficient enrollment.
This program is designed for students seeking to strengthen their Arabic language skills through intensive and immersive coursework. Instructors are natives of Morocco and reflect local cultural norms in their classroom demeanor and pedagogy.

**GPA**
Overall GPA of 2.5

**Credit**
10 semester/15 quarter hours

**Program Requirements**
Students take Modern Standard Arabic (7 semester/10.5 quarter hours) at the appropriate level and the Colloquial Moroccan Arabic Language course (3 semester/4.5 quarter hours).

**Top Disciplines**
Arabic Language, Cultural Studies

**Language of Instruction**
Arabic

**Housing and Meals**
Homestay – 2 meals per day
Shared apartment – meals not included

“I not only got to work with business experts that I learned a lot from, but also the intelligent and humble engineers who gave me new inspiring perspectives on work and life. The smaller environment allowed me to do so much more than I would have in a bigger organization. I received a lot of support from my colleagues that allowed me to believe in myself and achieve more.”

— Oanh T., Global Intern

**CIEE.org/china**
Students make China’s gateway city of Shanghai their home for studying the history and culture of China and Asia. ciee.org/southkorea
Students explore Taiwan’s role in the world economy and learn about the cross-strait relationship between Taiwan and China at one of the top-rated business schools in Asia. Business courses are taught in English, but students can learn basic Chinese while discovering Taiwanese culture.

**GPA**
Overall GPA of 2.5

**Credit**
3-4 semester/4.5-6 quarter hours per session

**Program Requirements**
Students take one CIEE content course for 3 credits and may also enroll in an optional Communicative Chinese Language course (may be taken only once) for an additional 1 credit.

**Top Disciplines**
Chinese Language, Economics, International Business

**Language of Instruction**
English

**Housing and Meals**
Residence hall – meals not included

**Program Duration**
Short-Term
Session II (4 weeks): mid-June – mid-July

**Comparative Experience**
Students can further customize their study abroad experience by combining CIEE short-term programs, perhaps even in different countries, for a greater global perspective.

**Options for students to consider:**
Moscow, Russia – Summer Business + International Relations
Rome, Italy – Summer in Rome
Rio de Janeiro, Brazil – Summer in Rio

**Host Institution**
CIEE Taipei

**Representative Courses**
Communicative Chinese Language
Global Perspectives on Chinese Business and Economy

*This course listing is for informational purposes only. The courses as described may be subject to change as a result of ongoing revisions, assignment of lecturers and teaching staff, and program development. Courses may be cancelled due to insufficient enrollment.*
Through intensive courses, language classes, a 2-week field research practicum in a community, and site visits, students learn about public health in this inviting part of Thailand and, in the process, discover more about themselves and their role in the world.

**GPA**
Overall GPA of 2.5

**Credit**
10 semester/15 quarter hours

**Program Prerequisites**
Prior college-level coursework in public health recommended.

**Program Requirements**
Students are required to take all three of the program courses: Beginning Thai Language and Culture, Pre-Professional Healthcare Issues, and Community Health Practicum.

**Top Disciplines**
Anthropology, Development, Health Science, Linguistics, Public Health

**Language of Instruction**
English, Thai

**Housing and Meals**
Dorm – meals not included

**Program Duration**
8 weeks
early June – early August
Brussels, Belgium
Summer Business, Communication + Culture

Students take a deep dive into business, communication, and culture in the European Union capital, which draws an impressive number of diplomats and international organizations – and a deepening array of cultures.

Nothing should prevent your students from studying abroad.

Dear Educators, international education experiences help students develop intercultural understanding and a global perspective. Despite these life-long benefits, only 1% of U.S. college students study abroad. Why? Barriers of cost, curriculum, and culture often stand in the way. We at CIEE are committed to clearing a path so that all students, regardless of socio-economic, academic, racial, or ethnic background, have access to international education. CIEE offers more than eight million a year in scholarships and grants, including guaranteed travel grants to all Pell-eligible students, and awards for Gilman applicants, students from Minority Serving Institutions, and more. Plus, CIEE has a diverse portfolio of short-term and traditional semester study abroad options in many academic disciplines. Besides first-class language programs, we have programs focused on business, design, journalism, and scores of other subjects. CIEE’s wide range of options means that nearly all students can find a way to study abroad during their time in college regardless of the requirements of their major or constraints of their institution’s academic calendar.

In response to demand, we’ve added dozens of new English-taught STEM courses to our Open Campus Block programming, many including a lab component. These courses are fundamental level, so STEM students can study abroad earlier in their academic career and non-STEM majors can complete a science or math requirement abroad. They are taught in six-week blocks across our Global Institute Network, which now includes Shanghai and Sydney.

We will keep working on new ways to open the door to international education for every student, and I hope you’ll join us in our efforts to convey to all students that study abroad is for them, not just for the 1% who currently are able to take advantage of the opportunity.

James P. Pellow, President and CEO, CIEE, Inc.
At CIEE, study abroad is so much more than coursework in a new country. It’s about taking students out of their daily routine and introducing sights, sounds, scents, and flavors that chip away their illusion of separateness and allow a sense of mutuality to emerge. That’s why our programs are packed with co-curricular activities and excursions and why we believe intercultural understanding has the power to change the world.
