Employers Communicating with Students

Here are some things to keep in mind when communicating with students while they are in the United States:

• Be sure to get the students’ in-country contact information and phone number so you can connect with them about their schedule, upcoming events, etc.
• Keep students informed about resources and events in the community before and during their time in the USA. It’s always a good idea to share information about excursions to festivals, welcome dinners or sites of interest in the area
• Please pass along messages to students from CIEE about community events, Connect USA events, CIEE site visits, etc.
