THE CIEE DIFFERENCE

ACCESS

Increase study abroad access to more students, including Pell-eligible, first-generation, and specialized degree program students through CIEE scholarships and grants, totaling \$13+ million each year.

Through Arizona State University online, students have access to 3,000+ courses at no additional cost.

INNOVATIVE PROGRAMS

Offer your students programs that evolve with their interests and your needs, including the most locations of any other provider.

FLEXIBILITY

Provide your students with a variety of programs and course delivery options that address their unique needs, keeping them on track academically.

IMMERSIVE EXPERIENCES

Deliver hands-on cultural learning and experiences to bring academic curriculum to life.

COMPREHENSIVE STUDENT SUPPORT

Ensure a welcoming and supportive environment for all students, with an emphasis on creating community, and ensuring student well-being.

CIEE COMMUNITY IMPACT INITIATIVE

Your students can make a difference in their host communities through meaningful service work projects.

"What sets CIEE apart is its **unwavering focus on student health and safety** and its demonstrated **commitment to access for all students.**"

Sylvie Burnet-Jones, M.A., Director,
Education Abroad, University
of Colorado Boulder

CIEE Madrid Staff
